China's demand for thermoset plastics has grown at a fast pace in the past decade. In the next five years, both production and demand will continue to grow. This new study examines China's economic trends, investment environment, industry development, supply and demand, industry capacity, industry structure, marketing channels and major industry participants. Historical data (1995, 2000 and 2005) and long-term forecasts through 2010 and 2015 are presented. Major producers in China are profiled.

This report examines China's macroeconomic trends, investment environment, Thermoset Plastics industry structure and capacity, production and demand, end-use market consumption trends, distribution channels and principal industry participants. Long-term forecasts for major Thermoset Plastics production and demand are included. Key producers are profiled. Top Chinese Thermoset Plastics producers are listed in the producer directory section.

Most primary and secondary researches were done in China in order to access up-to-date government regulations, market information and industry data. Data was collected from the Chinese government publications, Chinese language newspapers and magazines, Chinese chemical industry associations (including Chinese plastic industry associations, local governments' chemical industry bureaus), plastic industry publications, web, and our in-house databases.

Historical data include 1995, 2000 and 2005. Long-term development trends are projected to the years 2010 and 2015. Economic models and quantitative methods are applied in this report to project market demand and industry trends. Metric system is used and values are presented in either yuan (RMB, current price) and/or US dollars. Exchange rate for 2005 is based on the annual average rate (8.1 Yuan per US dollar). The word "demand" is used interchangeably with "consumption". Totals may not add due to rounding.
