Abstracts

The German real estate industry has been experiencing wonderful growth over the last years due to the relatively steady good economy. In 2006, some markets posted major gains in occupied space, others saw record sales transactions, and even where the market has begun to tighten, developers remained cautious possibly keeping an eye toward the future, particularly predictions of escalating rental rates.

Aruvian's R'search's focus report on Investing in the German Real Estate Industry is the ideal guide to have an overview of the real estate industry. The report covers all the major markets and looks at the introduction of REITs in the German market. An analysis of competition, focus on industry trends and growth trends, issues and challenges facing the industry, a PEST analysis, and much more can be found inside this report. A comprehensive analysis of the major investment markets in Germany is also given in the report, along with a focus on the major market players.
