## Abstracts

Epoxy resins serve as adhesives in the automobiles, aircrafts and boats production. Other applications include aerospace, flooring, paints and electronic industries. As great composites, epoxy resins are consumed in the manufacturing of molds, plastics and laminates.

In recent years, global epoxy resins output has been on an upward trend. In 2013, the material market was estimated at more than USD 18 billion.

The main epoxy resins production capacities are located in APAC. China accounts for 37% of the global material consumption. Moreover, demand in APAC is forecast to continue escalating.

Epoxy resins consumption is anticipated to increase in Europe and the US. CIS countries are also predicted to face the demand growth thanks to the wide epoxy resins application in the production of epoxy adhesives. At present demand in CIS countries is mostly met by imports.

The world epoxy resins market is forecast to increase at a CAGR of 6-7 %.

The report performs an overview of epoxy resins market in CIS countries and globally. It includes information about epoxy resins properties and application spheres. Such market indicators as demand, consumption and production are covered. Besides world market review the report gives detailed description of epoxy resins market trends in CIS countries. In addition, market forecast is done.

### 8. EPOXY RESINS MARKET IN UKRAINE

### 9. EPOXY RESINS MARKET IN BELARUS

### 10. EPOXY RESINS MARKET IN OTHER CIS COUNTRIES

Please note that the report is a half-ready publication which means we have all information for the report production but it needs to be organized into a finalized product. Besides, it requires updating with the help of new data that are constantly retrieved from various sources. This process takes 8-10 business days after the order is placed. Thus, our clients always obtain a revised and updated version of each report. BAC Reports has information for more than 25,000 different products available but it is impossible to have all reports finalized and updated immediately. That is why it takes 8-10 days to update a report after an order is received.
