## Abstracts

Aquarius Platinum Ltd. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Aquarius Platinum Ltd. and its competitors. This provides our Clients with a clear understanding of Aquarius Platinum Ltd. position in the [Metals and Mining](#) Industry.

The report contains detailed information about Aquarius Platinum Ltd. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Aquarius Platinum Ltd.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Aquarius Platinum Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Aquarius Platinum Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Aquarius Platinum Ltd. business.

### **About Aquarius Platinum Ltd.**

Aquarius Platinum Limited engages in the production of platinum group metals (PGMs), with operations on both the eastern and western limbs of South Africa.

#### Properties

**Kroondal Mine:** The Kroondal Mine is situated on the Western Limb of the Bushveld Complex in North West Province of South Africa. Kroondal has partnered with Anglo Platinum in a pool and share agreement. The Kroondal mine, which exploits the UG2 Reef, comprises four operating decline sections: the Central, East, No 3, and K5 shafts, which access the Kroondal and Townlands blocks. Kroondal also has two concentrator plants, K1 and K2, with a combined capacity of 570,000 tons per month. Kroondal has an offtake agreement for the processing and refining of its concentrate with Anglo Platinum.

**Marikana:** The Marikana mine lies 8 kilometers east of Kroondal, on the Western Limb of the Bushveld Complex, in North West Province, South Africa, and has both an underground (1, 2, and 4 shafts) and an open-pit operation. Marikana's concentrator plant has a monthly processing capacity of 220,000 tons. The company has a pool and share agreement with Anglo Platinum at Marikana. Concentrate produced from mineral

reserves contributed by Marikana is smelted, refined, and marketed by IRS.

**Everest:** The Everest mine is located on the eastern limb of the Bushveld Complex in the province of Mpumalanga, South Africa. The mine consists of an underground operation that mines the UG2 Reef. A concentrator plant with a monthly capacity of 230,000 tonnes processes the material mined. Concentrate from Everest Mine is smelted, refined, and marketed by Impala Refining Services.

**Mimosa mine:** The Mimosa mine is located on the Wedza Geological Complex, on the southern portion of the Great Dyke in Zimbabwe. It comprises a shallow underground mine accessed through a decline shaft and a surface concentrator plant. The mine is operated by joint venture partners Aquarius and Impala Platinum Holdings Limited (Implats). Mimosa has an offtake agreement with Centametal AG of Switzerland. In terms of this contract, concentrate produced by Mimosa is delivered to IRS in South Africa for processing and refining.

**Chromite Tailings Retreatment Plant:** The Chromite Tailings Retreatment Plant (CTRP) is located adjacent to the Kroondal mine. The mine processes old mine dumps and current tailings from the beneficiation process used at neighbouring chromite mines. The CTRP is jointly owned by Aquarius (50%), which also manages the plant, Ivanhoe Platinum and Nickel (25%), and Sylvania South Africa (25%). It has an Offtake agreement with Rustenburg Platinum Mines (RPM) and Impala Refining Services (IRS).

**Platinum Mile:** The company has acquired a 50% interest in Platinum Mile Resources (Pty) Ltd., which operates a tailings retreatment facility and processes certain tailings from RPM. The concentrate produced by Platinum Mile is sold to RPM with which it has a profit share arrangement. The remaining 50% is held by Mvelaphanda Holdings (Pty) Limited.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
