Abstracts

Bullion River Gold Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Bullion River Gold Corp. and its competitors. This provides our Clients with a clear understanding of Bullion River Gold Corp. position in the Industry.

The report contains detailed information about Bullion River Gold Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Bullion River Gold Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Bullion River Gold Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Bullion River Gold Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Bullion River Gold Corp. business.

About Bullion River Gold Corp.

Bullion River Gold Corp., together with its subsidiaries, engages in the exploration and production of gold and silver properties in the western United States. It primarily focuses on the Mother lode belt and Klamath Mountains in California and the Great Basin of the western United States.

Properties

French Gulch (Nevada) Mining Corp.

The company has 66 unpatented claims in the French Gulch district to properly secure and encompass areas of known gold mineralization. It has named the newly staked claims, along with the Washington - Niagara property, the 'French Gulch' properties.

In August 2005, the company entered an agreement with the Stump Family Trust (Stump) giving French Gulch the right to explore, develop, and mine the property. The property is located in Shasta County, California, adjacent to the French Gulch property, and consists of 1 patented lode mining claim.

North Fork Mining Corp.

In 2004, the company, through the wholly-owned subsidiary, North Fork Mining Corp. (North Fork), was assigned three options to acquire a 100% undivided right, title, and interest in an aggregate 42 unpatented mineral claims located in Sierra County in the State of California. The options were assigned from Golden Spike Mining.

Antone Canyon Property

In 2004, the company's wholly-owned subsidiary, Antone Canyon Mining Corp. (Antone), was assigned an option to acquire a 100% undivided interest in 60 unpatented mineral claims located in Nye County in the State of Nevada. The option was assigned from Golden Spike Mining.

Corcoran Canyon Mining Corp.

In 2004, the company's wholly-owned subsidiary, Corcoran Canyon Mining Corp. (Corcoran), was assigned an option to acquire a 100% undivided interest in 41 unpatented mineral claims located in Nye County in the State of Nevada. The option was assigned from Golden Spike Mining.

Wenban Spring Mining Corp.

In 2004, the company's wholly-owned subsidiary, Thomas Creek Mining Corp. (Thomas Creek), was assigned an option to acquire a 100% undivided right, title and interest in 76 unpatented mineral claims located in Eureka County in the State of Nevada.

The company has an agreement with Senator Minerals 'Senator', a Vancouver-based mineral exploration company for two properties, the Cortez South and the Gold Valley property, located in Lander County. The Cortez South property consists of 30 mineral claims and the Gold Valley property consists of 24 mineral claims. Its two properties are directly adjacent to the south of the Wenban Spring property.

Mission Mine Claims

In February 2006, the company entered into an exploration agreement with an option to purchase the 'Mission Mine' from TKM Corporation. The property consists of 26 unpatented lode mining claims situated in Riverside County, California.

The company entered into an exploration permit with the option to purchase 34

unpatented lode mining claims from Nevada Eagle Resources LLC (NER). The 32 LA claims (LA 1-17and 19-31) claims and the MMC 1 and 2 claims are located in the Dale Mining District of Riverside and San Bernardino counties of southern California.

History

The company was incorporated in 2001 under the original name Dynasty International Corporation. The company changed its name to Bullion River Gold Corp. in 2004.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
