company's decision-making processes.

In the part that describes Cerner Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Cerner Corp. business.

### **About Cerner Corp.**

Cerner Corporation supplies healthcare information technology (HIT) solutions, healthcare devices, and related services. The company's solutions are used by healthcare organizations ranging in size from single-doctor practices, to health systems, to entire countries, for the pharmaceutical and medical device industries, and for the healthcare commerce system.

The company's solutions are licensed by approximately 8,500 facilities worldwide, including approximately 2,300 hospitals; 3,400 physician practices covering approximately 30,000 physicians; 600 ambulatory facilities, such as laboratories, ambulatory centers, cardiac facilities, radiology clinics and surgery centers; 700 home health facilities; and 1,500 retail pharmacies.

The company designs and develops its software solutions on the Cerner Millennium architecture, a person-centric computing framework, which combines clinical, financial and management information systems. This architecture allows providers to access an individual's electronic health record (EHR) at the point of care, and it organizes and delivers information to meet the specific needs of physicians, nurses, laboratory technicians, pharmacists or other care providers, front- and back-office professionals, and consumers.

The company also offers a range of services, including implementation and training, remote hosting, operational management services, revenue cycle services, support and maintenance, healthcare data analysis, clinical process optimization, transaction processing, employer health centers, employee wellness programs, and third party administrator (TPA) services for employer-based health plans.

### Sales and Marketing

The company serves integrated delivery networks, physician groups and networks, managed care organizations, hospitals, medical centers, reference laboratories, home health agencies, blood banks, imaging centers, pharmacies, pharmaceutical manufacturers, employers, and public health organizations. In addition to the United States, through its subsidiaries, the company has sales associates and/or offices in Australia, Canada, Chile, England, France, Germany, China (Hong Kong), India, Ireland, Malaysia, Saudi Arabia, Singapore, Spain, and the United Arab Emirates.

### Significant Events

On December 13, 2010, Deffenbaugh Industries, Inc. has partnered with Cerner Corp. to develop an employee health and wellness center at the Deffenbaugh Industries headquarters in Kansas City, KS.

### Competition

The company's principal competitors in the healthcare solutions and services market include Computer Programs and Systems, Inc.; Eclipsys Corporation; Epic Systems Corporation; GE Healthcare Technologies; iSoft Group Limited; McKesson Corporation; Medical Information Technology, Inc. (Meditech); Misys Healthcare Systems; and Siemens Medical Solutions Health Services Corporation.

The company, for its consulting services, competes with Accenture; Capgemini; Computer Sciences Corporation; Computer Task Group, Inc. (CTG); Dell, Inc.; Deloitte LLP; Hewlett-Packard Company; and IBM Corporation. It also competes with Allscripts-Misys Healthcare Solutions, Inc.; athenahealth, Inc.; eClinicalWorks LLC; Emdeon Corporation; Greenway Medical Technologies; Quality Systems, Inc.; and Sage Software Healthcare LLC, which offer solutions to the physician practice market.

The company's principal competitors in the healthcare device market to include CareFusion Corporation; McKesson Corporation; Omnicell, Inc.; and Royal Philips

Electronics; and its principal competitors in the healthcare transactions market to include Emdeon Corporation; McKesson Corporation; and ProxyMed, Inc. (doing business as MedAvant Healthcare Solutions).

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
