## Abstracts

Formation Metals Inc Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Formation Metals Inc and its competitors. This provides our Clients with a clear understanding of Formation Metals Inc position in the Industry.

The report contains detailed information about Formation Metals Inc that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Formation Metals Inc. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Formation Metals Inc financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Formation Metals Inc competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Formation Metals Inc business.

## **About Formation Metals Inc**

Formation Metals Inc. engages in the acquisition, exploration, development, and refining of mineral natural resource properties in the United States, Canada, and Mexico.

The company's subsidiaries include Formation Capital Corporation, U.S. (Formation U.S.); Essential Metals Corporation (Essential); Coronation Mines Ltd. (Coronation); and Minera Terranova S.A. de C.V. (Minera Terranova).

### **Idaho Cobalt Project (ICP)**

The ICP consists of 241 unpatented lode mining claims located in east-central Idaho. The ICP covers an area of approximately 4,080 acres.

### **Other Mineral Projects and Properties**

**Big Creek Hydrometallurgical Complex:** The company has a 100 percent interest in the Big Creek Hydrometallurgical Complex and property located near Kellogg, Idaho. In addition, the company acquired and exercised an option to purchase an associated hydrometallurgical alkaline leach plant. The plant includes SX-EW circuits (Solvent Extraction Electrowinning circuits) for the extraction of copper, autoclave circuits

suitable for the extraction of cobalt (upon retrofitting), and the precious metals refining section of the plant, known as the Sunshine Precious Metals Refinery.

### Canadian Properties

**Virgin River:** The company has a joint exploration agreement with UEM Inc., a corporation owned 50% by Cameco Corporation and 50% by AREVA Resources Canada Inc. on the Virgin River project located in the Athabasca Basin of northern Saskatchewan. Cameco is the operator of the project. The 2008 diamond-drilling program consisted of 10,537.4 meters in 7 pilot holes and 11 follow-up wedge holes on the Centennial Deposit.

**Kernaghan Lake:** The Kernaghan/Bell project consists of 13 mineral claims totaling 4,342 hectares. The project area is located near the northeast rim of the Athabasca Basin approximately 42 kilo metres north of Points north landing.

### U.S. Properties

**Black Pine and Morning Glory Properties, Idaho:** Formation U.S. also holds a 100% interest in 29 unpatented mining claims that it acquired through staking and has the right to acquire a 100% interest in 36 unpatented mining claims and 4 patented claims and holds a 100% interest in 17 unpatented mining claims and an option to acquire a 100% interest in an additional 20 unpatented mining claims contiguous to the 17 unpatented claims, all located in Lemhi County, Idaho.

**Black Pine Property - Previous Work:** Formation U.S. has completed 100 diamond drill holes totalling 44,954 feet, and 100 reverse circulation holes totalling 15,625 feet.

**Morning Glory Property - Previous Work:** Formation U.S. has conducted a program of mapping, rock and soil sampling on the Morning Glory Property.

### Mexican Properties

Minera Terranova holds a 100% interest in the exploration and exploitation concession properties located in Mexico.

### History

The company was founded in 1988. It was formerly known as Formation Capital

Corporation and changed its name to Formation Metals Inc. on November 9, 2009.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
