Abstracts

Mitec Telecom Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Mitec Telecom Inc. and its competitors. This provides our Clients with a clear understanding of Mitec Telecom Inc. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about Mitec Telecom Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Mitec Telecom Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Mitec Telecom Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Mitec Telecom Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Mitec Telecom Inc. business.

About Mitec Telecom Inc.

Mitec Telecom Inc. engages in the design and manufacture of telecommunication products for the wireless and satellite communications industries worldwide.

Segments

The company operates in two segments, Wireless Telecommunications (Telecom) and Satellite and Terrestrial Communications (Satcom).

The Telecom Segment consists of designing, manufacturing and selling radiofrequency (RF) conditioning and amplifier subsystems for wireless and cellular base stations. These components are distributed worldwide and are integrated into high performing wireless communication infrastructures that enable voice, data/Internet and broadband capabilities in multimedia communications area.

The Satcom Segment engages in the design, manufacture, and sale of RF components and subsystems for Satellite Earth Stations used by direct-to-home TV service providers' very small aperture terminal networks (VSAT). It also sells solid-state power amplifier technologies, which carries various intellectual property rights and are patent protected, mainly to government and military system integrators for military radar and

communication systems.

Products

The company sells its components worldwide mainly to network providers for incorporation into high-performing wireless communication infrastructures that enable voice, data/Internet and ultimately multimedia communications. Its equipment is integrated into telecommunications systems and then sold to telecommunications service providers, including telephone, cellular, paging, data and broadcast companies, who use it in constructing their communications networks.

The company designs and manufactures wireless, microwave and satellite transmission system products, such as amplifiers; multi-carrier amplifiers; masthead amplifiers; booster amplifiers; duplexers; filters; tower top receivers; receiver multi-couplers; coaxial duplexers and filters; integrated LNA duplexer assemblies; filters-subsystems; circulators, isolator, couplers and flexible waveguides; wave guides (rigid/flexible); redundancy switching networks; monitoring and control systems; output arms; solid-state power amplifiers; and VSAT products, and integrates these components into multi-function subsystems (MFSs). The company has designed, produced and supplied wireless infrastructure equipment in the following areas VSAT uplink networks; components, subsystems and MFSs used in the construction of base stations for existing cell-based networks as well as for the new personal communication systems (PCS)/personal communications network (PCN) cell-based networks; and uplink and downlink network MFSs to be integrated into earth stations for satellite communications.

Customers

The company's customers include network providers, system integrators, and system operators. Its major customers include Huawei; GDNT; Globecom; Alcatel-Lucent; CommScope; Ericsson; Datapath; Viasat; Ceragon Networks; Xiacom; RFS; Echostar; EADS Astrium; PAX River; Naval Research Laboratories; and L3 Communications. It sells its products in Canada, the United States, Europe, and Asia.

History

Mitec Telecom Inc. was founded in 1972.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
