Abstracts

REPORT SCOPE:

This study reviews the following technology categories, along with relevant market and production information, technological descriptions and issues, and key applications and market factors in major worldwide markets. This report organizes technologies into the following segments, presenting detailed market data for each -

Erosion control blankets.

Jute.

Blown straw.

Hydromulch.

Hydroseed.

Wattles and filter socks.

Degradable geotextiles: thermoplastic starch, PLAs, PHAs and cellulose acetate.

Low-impact development (LID) technologies.

The following applications are also considered within the study, with market breakdowns

for each by region with select countries -

Commercial building construction.

Residential development construction.

Industrial facility construction.

Mining industry.

Road construction.

Pipeline installation (water and energy).

Eco/restoration.

Drainage stabilization and long-term applications.

REPORT INCLUDES:

71 data tables and 10 additional tables

An overview of the global market for sustainable erosion control, sediment management, and stabilization

Estimation of the market size and analyses of global market trends with data from 2019, estimates for 2020, and projections of compound annual growth rates (CAGRs) through 2025

Characterization and quantification of market based on technology categories, technology lists, characteristics, technological trends and products

Comparison between erosion control versus sediment control; information on sustainable erosion control and highlights of the best management practices

Information on degradable geotextiles and description of their types, i.e., thermoplastic starch, cellulose acetate, and PLAs and PHAs

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

What is Erosion?
Why We Need to Control Erosion
Erosion Control versus Sediment Control
Sustainable Erosion Control
Best Management Practices
Sustainable Erosion Control: Technologies
Erosion Control Blankets
Jute
Blown Straw
Hydromulch
Hydroseed
Wattles and Filter Socks
Degradable Geotextiles
Low-Impact Development
Applications
Commercial Building Construction
Residential Development Construction
Industrial Facility Construction

Drainage Stabilization and Long-Term Applications
Technologies Not Considered in This Study

CHAPTER 4 GLOBAL MARKET SUMMARY

Scope of the Market Analysis
Global Market for Erosion Control Technologies by Geography
Global Market for Erosion Control by Technology
Global Market for Erosion Control by Application

CHAPTER 5 MARKET BREAKDOWN BY TECHNOLOGY

Erosion Control Blankets
Jute
Blown Straw
Hydromulch
Hydroseed
Wattles and Filter Socks
Degradable Geotextiles
LID Technologies

CHAPTER 6 MARKET BREAKDOWN BY APPLICATION

Commercial Building Construction Applications
Residential Development Construction Applications
Industrial Facility Construction Applications
Mining Industry Applications
Road Construction Applications
Pipeline Installation Applications
Eco-Restoration Applications
Drainage Stabilization and Long-Term Applications

CHAPTER 7 INDUSTRY TRENDS AND MARKET OPPORTUNITIES

Supply Chains
Commodity Supply Chain
Petroleum Supply Chain

Raw Materials Producers
Material Manufacturers and Fabricators
Chemical Production Specialists
Original Equipment Manufacturers
Specialty Equipment Manufacturers
