The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Providence Service Corp. business.

About Providence Service Corp.

The Providence Service Corporation provides and manages government sponsored social services and non-emergency transportation services. With respect to social services, the company's counselors, social workers, and behavioral health professionals work with clients who are eligible for government assistance due to income level, emotional/educational disabilities, or court order.

The company provides social services primarily in the client's home or community. With respect to non-emergency transportation services, the company manages and arranges for client transportation to health care related facilities and services for state or regional Medicaid agencies, health maintenance organizations, or HMO's, and commercial insurers. The company served approximately 82,000 clients either directly or through managed entities. Additionally, 7.7 million individuals were eligible to receive services under non-emergency transportation services contracts, as of December 31, 2009. The company operates from 427 locations in 43 states, the District of Columbia, and British Columbia, as of December 31, 2009.

Social Services

Services offered: The company provides home and community based services, foster

care and provider management services, directly and through entities it manages.

Home and community based counseling

Home based and intensive home based counseling: The company's home based counselors are trained professionals or para-professionals providing counseling services in the client's own home. These services average five hours per client per week and can include individual, group or family sessions. Topics are prescriptive to each client and can include family dynamics, peer relationships, anger management, substance abuse prevention, conflict resolution, parent effectiveness training and misdemeanor private probation supervision.

The company also provides home based counseling, which consists of up to 20 or more hours per client per week. Its home based counselors are masters or Ph.D. level professional therapists or counselors. Home based counseling is designed for clients struggling to cope with everyday situations. The company's counselors are qualified to assist with marital and family issues, depression, drug or alcohol abuse, domestic violence, hyperactivity, criminal or anti-social behavior, sexual misbehavior, school expulsion or chronic truancy and other disruptive behaviors.

Substance abuse treatment services: The company's substance abuse treatment counselors provide services in the office, home and counseling centers designed especially for clients with drug or alcohol abuse problems. Its counselors use peer contracts, treatment group process and a commitment to sobriety as treatment methods. The company's professional counseling, peer counseling and group and family sessions are designed to introduce clients dependent upon drugs or alcohol to a sober lifestyle.

School support services: The company's professional counselors are assigned to and stationed in public schools to assist in dealing with problematic and at-risk students. Its counselors provide support services, such as teacher training, individual and group counseling, logical consequence training, anger management training, gang awareness and drug and alcohol abuse prevention techniques. In addition, the company provides in-home educational tutoring in various markets where it contracts with individual school districts to assist students who need assistance in learning.

Correctional services: The company provides misdemeanor private probation supervision services, including monitoring and supervision of those sentenced to probation, rehabilitative services, and collection and disbursement of court-ordered

fines, fees and restitution.

Workforce development: The company assists individuals to achieve their potential to obtain and retain meaningful employment through services that include vocational evaluation, job placement, skills training, and employment support.

Foster care

Foster care: The company recruits and trains foster parents and licenses family foster homes to provide 24-hour care to children who have been removed.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
