Abstracts

Global Kitchen Cabinet Market is valued approximately USD 112.8 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 6% over the forecast period 2020-2027. The kitchen cabinets are a sub-segment of household furniture that is used in the kitchen, as the name implies. Such cabinets are being used for holding and showing the cooking appliances and utensils. The major driver for kitchen cabinets is the development of residential buildings. Increasing number of residential project aid high growth of countertops in renovation models, as homeowners opt for larger kitchens. The increasing demand for space-saving and professional storage, which enhances the use of small spaces by customers, is triggering the market growth. According to Statistics Canada, In the year 2017, investments made in new housing construction in Canada rose by 7.2% in June 2017 as compared to June 2016. Similarly, in India, Department of Commerce, Department of Energy, Department of Transportation and Environmental Protection Agency jointly has invested funds of around $70 million to develop new smart city solutions which includes residential and commercial sector development.
Compared with traditional kitchen cabinets, ease of installation and availability of ready-to-install kitchen cabinets and personalized kitchen cabinets at reasonable prices is expected to fuel the market over the forecast period. For example, CustomeFurnish.com provides its users customization options, enabling them to choose

the product's upholstery as well as frame content, color, and design. Similarly, Pepperfry, a home goods manufacturer and retailer, serves both online and offline platforms. IKEA is a well-known manufacturer in the global furniture industry that is renowned in its portfolio for its creative products. But lower demand in underdeveloped nations due to lower disposable income as well as slow growth in urbanization will restrict the growth of the global market for ready-to-install kitchen cabinets.

The regional analysis of global Kitchen Cabinet market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Due to the growing trends in kitchen furnishing combining rustic and modern styles that require change in kitchen cabinets, North America is expected to experience decent growth in ready-to-install kitchen cabinets market. As for the market value of ready-to-install kitchen cabinets market, Europe is projected to follow North America over the forecast period. Asia pacific is anticipated to show significant growth levels and drive demand positively over the forecast timeframe due to the rising trend of renovating the kitchen into modular style kitchens, that is projected to exceed demand for ready-to-install kitchen cabinets.
