Abstracts

Inflation remained a pressing issue for Belgian consumers in 2023 with economic uncertainty and financial anxiety exacerbated by high heating and energy costs. As consumer purchasing power declined, retail volume sales of beauty and personal care also decreased. Buoyed by price increases, current value growth remained on a par with 2022 levels. In this tough economic climate, consumers focused on buying personal care over beauty products, resulting in a better performance of categories such as h...

Euromonitor International's Beauty and Personal Care in Belgium report offers a comprehensive guide to the size and shape of the market at a national level.
