Abstracts

Having surged during 2020 as consumers spent more time at home and ate more meals and snacks there, the rate of growth in retail volume sales of cheese will slow to its lowest rate in five years during 2021. The fact that some consumers responded to the pandemic by stockpiling cheese during 2020 will also play a role in this. Hard cheese dominates retail volume sales of cheese in Russia, but soft cheese significantly outperformed it in terms of retail volume sales growth during the review period...

Euromonitor International's Cheese in Russia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2016-2020, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
