Abstracts

Dishwashing products in Spain registered only marginal growth in retail volume terms in 2023. This was partly attributable to the high cost of living, which forced many consumers to modify their daily cleaning habits, in order to reduce their water and energy bills. Advice on how to save money was pervasive within the media, with Spaniards advised to only their dishwashers at full capacity, for example. This reduced demand for automatic dishwashing products, as consumers ran their appliances les...

Euromonitor International's Dishwashing in Spain market report offers a comprehensive guide to the size and shape of the market at a national level.
