Abstracts

Home care products in Germany are widely available, with many considered everyday household essentials, thereby offering a traditionally stable market environment. However, 2023 continued to be defined by the effects of inflation and the cost-of-living crisis, which has been common across all major Western European markets since 2022. The ongoing impact of inflation continued to drive up the cost of everyday essentials such as home care, forcing local consumers to trade down or reduce their outg...

Euromonitor International's Home Care in Germany market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
