https://marketpublishers.com/r/LFDB36BFD3CEN.html
Date: September 2022
Pages: 22
Price: US$ 990.00 (Single User License)
ID: LFDB36BFD3CEN

Abstracts

Hotels in Poland remains in a difficult situation, post-pandemic, despite having benefited from government aid during the coronavirus crisis. The smooth transition from the pandemic to the war in the Ukraine further subverts progress, with many foreign tourists regarding Poland as a country dangerously close to the war zone and overrun by refugees. Safety worries persist, though have shifted from concern with coronavirus contagion to anxiety over military conflict.

Euromonitor International's Lodging (Destination) in Poland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2026 illustrate how the market is set to change.
