Abstracts

IT Asset Disposition Service (ITAD) is a method and procedure for enterprises to properly dispose of IT assets at the end of their life cycle (such as obsolete or abandoned hardware) by formulating service plans and implementing disposal processes. Its core goal is to balance economic, safe and sustainable solutions while meeting the internal and external needs of the enterprise, and to decommission and dispose of obsolete IT equipment in a safe and environmentally friendly manner, including reuse, recycling, re-use, repair or destruction, so as to promote the implementation of electronic equipment retirement optimization strategies.

The global IT Asset Disposition (ITAD) Service market size was estimated at USD 975.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 6.80% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global IT Asset Disposition (ITAD) Service market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.

A significant focus of this report lies in the competitive landscape of the global IT Asset Disposition (ITAD) Service market. It offers detailed profiles of major players, including
