Abstracts

This executive summary comes from CCM's report Company Profiles of Five Polylactic Acid Producers in China finished in Sept. 2014.

Along with the public's increasing awareness of environmental pollution, a growing number of people are using environmental-friendly stuffs such as degradable plastic bags instead of common plastic bags. Enterprises also actively respond to this development trend. For example, Dangdang, a popular online shopping website in China, started to distribute goods incorporated with degradable packages made of PLA on 5 June, 2014. It sets a good example to take practical actions to protect the gradually deteriorate environment.

The production of PLA in China has seen some significant changes in recent years. What changes are the whole PLA industry and the major producers experiencing? This executive summary briefs you an overview of the industry and dynamics of major producers in China in 2013.
