DESCRIPTION

Psychiatry Collaboration and Licensing Deals provides a comprehensive understanding and unprecedented access to the psychiatry deals entered into by the worlds leading biopharma companies.

Fully revised and updated, the report provides details of psychiatry deals from 2016 to 2023.

The report provides access to deal payment terms as announced between the parties. This data provides useful insight into the payment and other deal terms.

Understanding the flexibility of a prospective partner's negotiated deals terms provides critical insight into the negotiation process in terms of what you can expect to achieve during the negotiation of terms. Whilst many smaller companies will be seeking details of the payments clauses, the devil is in the detail in terms of how payments are triggered and rights transferred – contract documents provide this insight where press releases and databases do not.

This report contains a comprehensive listing of collaboration and licensing deals

announced since 2016 as recorded in the Current Agreements deals and alliances database, including financial terms where available, plus links to online copies of actual licensing contract documents as submitted to the Securities Exchange Commission by companies and their partners.
