Abstracts

Introduction

The Asset Management Competitor Tracker provides expert analysis and opinion on the strategic moves of leading competitors in the asset management space. Produced on a quarterly basis, the Tracker is a global product and covers over 45 players and their associated brands, including BNP Paribas, BNY Mellon, Commerzbank, HSBC, Rabobank and Schrodgers.

Features and benefits

Gain invaluable information on your key competitors in one concise document, and track long-term trends using the interactive news database.

Sharpen your strategy by implementing the best market, product, competitor and strategic developments of leading global players.

Learn the Datamonitor Wealth & Investments Team's view on the most important competitor developments in the month.

Highlights

The third quarter of 2010 saw a decrease in competitor developments compared to the previous two quarters. The number of developments stood at 57, which was significantly down on the first quarter high of 101 competitor movements.

The majority of competitor developments during the quarter were related to M&A, Partnership and Organic Growth developments. One example of a key development this

quarter includes BNY Mellon's acquisition of BHF Asset Servicing.

Your key questions answered

What have been the key product developments and innovations amongst my competitors?

Which regions have experienced the most competitor activity?
