Abstracts

According to our (Global Info Research) latest study, the global Cannabis Delivery Service market size was valued at US$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

The primary driver for the growth of the cannabis delivery service market was the gradual legalization and regulation of cannabis in various states and countries. Legalization opened up new opportunities for businesses to operate legally and provide convenient delivery options to consumers. Cannabis delivery services offer convenience to consumers who may not have easy access to physical dispensaries or prefer the privacy of having products delivered discreetly to their homes.
