Abstracts

SUMMARY

Strategic Defence Intelligence's 'PT Dahana: Aerospace and Defense - Company Profile and SWOT Analysis' contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, SWOT analysis, business description, company history, recent developments, key employees as well as company locations and subsidiaries.

KEY FINDINGS

This report is a crucial resource for industry executives and anyone looking to access key information about 'PT Dahana'

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. Strategic Defence Intelligence strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

SYNOPSIS

PT Dahana (Dahana) is a state owned company that produces explosive products. The company also provides integrated explosives services and blasting services for oil and gas, general mining, and quarry and construction sectors. Its key products include detonator sensitive emulsion explosives; water resistant bulk emulsion explosives; Pentolite boosters; ammonium nitrate and fuel oil base explosives; electric detonators; detonating cord; nonelectric, bidirectional, millisecond delay detonator assemblies; and

blasting machine. The company's key services include drilling services such as borehole drilling; and blasting services including bench blasting, trench blasting, tunnel blasting, cautious blasting or underwater blasting. Dahana also provides ground vibration services for measuring vibration and air blast, generated by blasting activity. In addition, the Dahana provides other related services including explosives supply, explosives demolition service, mobilization, magazine and bunker service, and explosives handling consultation service. The company's production facilities are located in Tasikmalaya, Subang, Karimun. Dahana is headquartered in Subang, West Java, Indonesia.

This business intelligence report presents the key company information, essential to understanding industry challenges and competitors.

The SWOT analysis identifies the company's strengths, weaknesses, opportunities for growth and threats. The key competitors are dissected alongside the larger challenges that the industry is facing.

The company profile relays all current information about the business operations, including key employees, major products and services, company history, locations and subsidiaries alongside a supporting statement from the Chairman and Managing Director.

REASONS TO BUY

Quickly enhance your understanding of 'PT Dahana'

Gain insight into the marketplace and a better understanding of internal and external factors which could impact the industry.

Increase business/sales activities by understanding your competitors' businesses better.

Recognize potential partnerships and suppliers.

KEY HIGHLIGHTS

PT Dahana (Dahana) is a state owned company that produces explosive products. The

company also provides integrated explosives services and blasting services for oil and gas, general mining, and quarry and construction sectors. Its key products include detonator sensitive emulsion explosives; water resistant bulk emulsion explosives; Pentolite boosters; ammonium nitrate and fuel oil base explosives; electric detonators; detonating cord; nonelectric, bidirectional, millisecond delay detonator assemblies; and blasting machine. The company's key services include drilling services such as borehole drilling; and blasting services including bench blasting, trench blasting, tunnel blasting, cautious blasting or underwater blasting. Dahana also provides ground vibration services for measuring vibration and air blast, generated by blasting activity. In addition, the Dahana provides other related services including explosives supply, explosives demolition service, mobilization, magazine and bunker service, and explosives handling consultation service.
