Abstracts

Introduction

The Express Market Profile - Netherlands contains a detailed outlook on the Express industry in this country, reporting on market size, segmentation, trends, and growth forecasts up to 2014 as well as an overview of the European (EU-16) market situation.

Features and benefits

Covers details of the Dutch express market as well as a full European overview

Analyses the country's express market by size & growth levels, further broken down into the segmentations of Destination, Service Level and Recipient

Highlights

The Dutch express market value declined by more than 8% in 2009 compared to the previous year. A severe downturn in intercontinental trade along with a drop in domestic demand affected the market severely.

Your key questions answered

Understand how the country's express market will develop over the next five years and how it performs compared with the European average.

Understand the drivers behind the different growth levels of market segments within the country's express market.
