Abstracts

Payment bank solutions refer to a specialized category of banking services offered by payment banks, which are licensed financial institutions that operate on a restricted basis, focusing primarily on providing deposit accounts, payment and remittance services, and facilitating money transfers, while being prohibited from engaging in lending activities or issuing credit; these solutions are designed to promote financial inclusion by targeting underserved and unbanked populations through digital and mobile-first approaches, offering essential banking functions such as small savings accounts, domestic fund transfers, bill payments, and issuance of debit cards, all supported by streamlined, technology-driven platforms that prioritize accessibility, affordability, and ease of use over traditional, full-service banking features.

The global Payment Bank Solutions market size was estimated at USD 18500.0 million in 2024 and is projected to grow at a compound annual growth rate (CAGR) of 12.50% during the forecast period.

This report offers a comprehensive and in-depth analysis of the global Payment Bank Solutions market, covering all critical facets from a broad macroeconomic overview to detailed micro-level insights. It examines market size, competitive landscape, emerging development trends, niche segments, key drivers and challenges, as well as conducts SWOT and value chain analyses.

The insights provided enable readers to understand the competitive dynamics within the industry and formulate effective strategies to enhance profitability and market positioning. Additionally, the report presents a clear framework for evaluating the current status and future outlook of business organizations operating in this sector.
