Abstracts

According to our (Global Info Research) latest study, the global Gastroduodenal Stent market size was valued at US$ 135 million in 2025 and is forecast to a readjusted size of US$ 188 million by 2032 with a CAGR of 4.9% during review period.

In 2025, global gastroduodenal stent sales volume was approximately 145.5 thousand sets, with an average selling price of about US$900 per set. Each set typically consists of one self-expanding stent and a dedicated single-use delivery system. A gastroduodenal stent is a luminal implant placed under endoscopic and imaging guidance across a stenotic segment of the gastric outlet, pylorus, or duodenum. It is generally constructed from a nitinol mesh with shape-memory properties and sustained radial force and may be designed in uncovered, partially covered, or fully covered configurations. After deployment, the stent expands to support the narrowed digestive tract, relieve obstruction caused by tumor growth, external compression, or local stenosis, and restore the passage of gastric contents and oral food intake. This topic focuses on gastroduodenal stent systems used for the palliative treatment of malignant gastric outlet, pyloric, and duodenal obstruction, primarily in hospital gastrointestinal endoscopy centers, oncology centers, and interventional treatment departments.

Market growth is primarily driven by the rising number of patients with pancreatic cancer, gastric cancer, and other periampullary malignancies, together with increasing treatment demand associated with population aging. Compared with surgical gastrojejunostomy, endoscopic stent placement is less invasive and generally enables faster recovery, making it particularly suitable for patients with advanced cancer, poor general condition, or limited life expectancy. Continued improvements in through-the-scope delivery, low-profile delivery systems, controlled release, and repositionability are

also enhancing procedural success and ease of use. In addition, expanding gastrointestinal endoscopy capacity in emerging markets and increased supply from manufacturers in China, South Korea, and India are supporting broader product availability and higher treatment penetration.

Report Scope

This report is a detailed and comprehensive analysis for global Gastroduodenal Stent market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Gastroduodenal Stent market size and forecasts, in consumption value ($ Million), sales quantity (K Sets), and average selling prices (US$/Set), 2021-2032

Global Gastroduodenal Stent market size and forecasts by region and country, in consumption value ($ Million), sales quantity (K Sets), and average selling prices (US$/Set), 2021-2032

Global Gastroduodenal Stent market size and forecasts, by Type and by Application, in consumption value ($ Million), sales quantity (K Sets), and average selling prices (US$/Set), 2021-2032

Global Gastroduodenal Stent market shares of main players, shipments in revenue ($ Million), sales quantity (K Sets), and ASP (US$/Set), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Gastroduodenal Stent

To forecast future growth in each product and end-use market

info@marketpublishers.com

To assess competitive factors affecting the marketplace

This report profiles key players in the global Gastroduodenal Stent market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Boston Scientific Corporation, Cook Medical LLC, Taewoong Medical Co., Ltd., M.I.Tech Co., Ltd., S&G Biotech Inc., Standard Sci-Tech Inc., Mediwood Co., Ltd., SB-KAWASUMI Co., Ltd., Japan Lifeline Co., Ltd., bess pro gmbh, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Gastroduodenal Stent market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Chapter Outline

Chapter 1, to describe Gastroduodenal Stent product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Gastroduodenal Stent, with price, sales quantity, revenue, and global market share of Gastroduodenal Stent from 2021 to 2026.

Chapter 3, the Gastroduodenal Stent competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Gastroduodenal Stent breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026.and Gastroduodenal Stent market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Gastroduodenal Stent.

Chapter 14 and 15, to describe Gastroduodenal Stent sales channel, distributors, customers, research findings and conclusion.
