Abstracts

Introduction

This databook gives a comprehensive analysis of the wholesale wireline market with respect to broadband and narrowband network types. The wholesale broadband networks, segmented into consumer and business sectors are analyzed by the technologies: DSL, Leased line, Ethernet, Cable modem and Fiber. The narrowband network is illustrated via usage minutes and revenue generation.

Scope

Wholesale broadband access market analysis

Wholesale narrowband wireline access market overview

Cross-country analysis, comparing the top five countries within wholesale broadband access

Highlights

The wholesale broadband accounted for 91.1% of the total market revenues. This market is expected to decline at a CAGR of 2% over the period of 2009-2016. The wholesale narrowband is expected to decline at a CAGR of 18.8% over the period of 2009-2016.

The wholesale consumer broadband market is expected to decline at a CAGR of

1.1% over the period of 2009-16. The wholesale business broadband is expected to decline at a CAGR of 4.6% over the period of 2009-16.

Reasons to Purchase

Assess lucrative segments for investment within the wholesale wireline access market in Canada

Identify key trends and areas of growth in the wholesale wireline access market in Canada

Make informed strategic business decisions
