Abstracts

Smartphone and Tablet Insurance is a type of coverage designed to protect individuals and businesses from financial losses associated with damage, theft, or loss of smartphones and tablets. This insurance typically covers the cost of repairing or replacing the device, depending on the specific terms and conditions of the policy. It can also include additional benefits such as coverage for unauthorized usage or data breaches, providing comprehensive protection for the user's digital life.Smartphone and tablet insurance is becoming increasingly popular as these devices have become indispensable tools for personal and professional use. With the rise of mobile technology, people rely heavily on their smartphones and tablets for communication, entertainment, work, and more. As such, the potential financial impact of losing or damaging these devices can be significant, making insurance a valuable option for many.

The global Smartphone and Tablet Insurance market size was estimated at USD 52000.0 million in 2025 and is projected to grow at a compound annual growth rate (CAGR) of 3.50% during the forecast period.
