Abstracts

A diverse range of markets are being impacted by nanomaterials incorporated into plastics and polymers such as aerospace and aviation, automotive, food, pharmaceutical and electronics packaging, electrical and electronic goods, and sporting goods. Nanomaterials finding application in these markets include nanoclays, carbon nanotubes, metal nanoparticles, nanofibers, fullerenes and POSS, and more recently graphene and nanocellulose.

WHAT DOES THE REPORT INCLUDE?

Comprehensive quantitative data and forecasts for the market to 2016

Qualitative insight and perspective on the current market and future trends in end user markets based on interviews with key executives

End user market analysis

Over 80 tables and figures

Contents

1 REPORT METHODOLOGY

2 EXECUTIVE SUMMARY

3 OVERVIEW

4 NANOCCLAYS

4.1 Applications and markets

4.1.1 Aerospace and aviation

4.1.2 Automotive

4.1.3 Flame retardants

4.1.4 Thermal and electrical conductors

4.1.5 Packaging

4.2 Production volumes of nanoclays

4.3 Companies and products

5 CARBON NANOTUBES

5.1 Applications and markets

5.1.1 Aerospace and aviation

5.1.2 Automotive

5.1.3 Consumer products

5.1.4 Military and defense

5.1.5 Packaging

5.2 Production volumes for carbon nanotubes

5.3 Companies and products

6 METAL NANOPARTICLES

6.1 Applications and markets

6.1.1 Aerospace and aviation

6.1.2 Automotive

6.1.3 Electronics

6.1.4 Tools and manufacturing

6.2 Production volumes of metal nanoparticles

6.3 Companies and products

7 NANOFIBERS

7.1 Applications and markets

7.1.1 Aerospace and aviation

7.1.2 Automotive

7.1.3 Electronics

7.1.4 Energy

7.1.5 Filtration

7.1.6 Plastics

7.1.7 Textiles

7.2 Production volumes of nanofibers

7.3 Companies and products

8 FULLERENES AND POSS

8.1 Applications and markets

8.1.1 Aerospace and Aviation

8.1.2 Automotive

8.1.3 Consumer products

8.1.4 Electronics

8.1.5 Energy

8.1.6 Packaging

8.1.7 Flame retardent

8.2 Production volumes of fullerenes and POSS

8.3 Companies and products

9 GRAPHENE

9.1 Applications and markets

9.1.1 Aerospace and aviation

9.1.2 Automotive

9.1.3 Consumer products

9.1.4 Electronics

9.1.5 Energy

9.2 Production volumes of graphene

9.3 Companies and products

10 NANOCELLULOSE

10.1 Applications and markets

10.1.1 Automotive

10.1.2 Paper and pulp

10.1.3 Packaging

10.2 Production volumes of nanocellulose

10.3 Companies and products

11 PLASTICS AND POLYMERS END USER MARKETS

11.1 Aerospace and aviation

11.2 Automotive

11.3 Consumer goods

11.4 Electronics and semiconductors

11.5 Energy

11.6 Medical and bio

11.7 Military and defense

11.8 Packaging
