Husky Energy Inc. Oil and Gas Exploration and Production Operations and Cost Analysis – Q3, 2009

GlobalData

Date: Nov, 2009

Pages: 124

Price: US\$ 250.00

ID: HE72AD1C95BEN

Husky Energy Inc. (Husky Energy) is an integrated company with operations in oil and gas upstream, midstream and downstream areas. The company's upstream operations include the exploration, development and production of crude oil, bitumen and natural gas. Husky Energy's midstream activities include pipeline transportation, storage, processing, power cogeneration, and the marketing of crude oil, natural gas, natural gas liquids (NGL), sulfur and petroleum coke. Its downstream operations include the refining, distribution and retail marketing of petroleum products. It conducts its operations mainly in Canada, the US, China and Indonesia. It is headquartered at Alberta, Canada

GlobalData's "Husky Energy Inc. Oil & Gas Exploration and Production Operations and Cost Analysis – Q3, 2009" is an essential source for key operational data, analysis and strategic insight into the company. The report provides detailed and unique information on the key operational parameters for the last six years. The report provides a comprehensive overview of production, reserves, reserve changes, capital expenditures, acreage, performance metrics, and results of oil & gas operations. The report is based on publicly available data filed with the US Securities and Exchange Commission (SEC) and other similar agencies worldwide. GlobalData is a premium business intelligence company.

Scope

- Key operational parameters which include production, reserves, reserve changes, capital expenditures, acreage, performance metrics, and results of oil & gas operations.
- Analysis of the performance of the company on key valuation multiples such as market capitalization, enterprise value, EV/Production (\$/Boed), EV/Proved Reserve (\$/MMboe), EV / EBITDA, and EV / EBITDA.
- Annual and quarterly information on key operational, valuation and financial parameters. Annual information is for the current and the last five years while the quarterly information is for the current and the last four quarters.
- Detailed crude oil and natural gas reserves and production of the company by country
- In-depth and latest information on exploration, development, finding & development, acquisition expenditure, gross and net developed and undeveloped acreage position, key costs and revenue information, and performance metrics of the company.

Reasons to buy

- Formulate business strategies through competitor comparison and business performance assessment.
- Rank your performance against oil and gas companies using operational and financial benchmarking metrics.
- Understand and capitalize on the strengths and weaknesses of your competitors
- Scout for potential acquisition targets, with detailed insight into the companies' operational performance.
