Abstracts

China is driving towards to an electric future and has speeded up its environmental efforts yet again. The rapid growth of the electric car industry is supported by the Chinese government's favourable subsidy policy, which is very generous. Subsidies are granted to electric car makers, as well as consumers who purchase electric vehicles.

Euromonitor International's Luxury Cars in China report offers a comprehensive guide to the size and shape of the Luxury Cars market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market and their effects on Luxury Cars retailing along with the development of consumers' shopping patterns. Forecasts to 2023 illustrate how the market is set to change

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
