Abstracts

Indonesia's machinery industry saw steady turnover growth in 2018, largely aided by upbeat demand for construction-related equipment, both domestically and in neighbouring Asian countries. Regarding sales in Indonesia, manufacturers continued to gain from President Widodo's infrastructure development agenda. Under the 2018 annual state budget, infrastructure spending edged up 5.8% year-on-year to reach IDR410.7 trillion. Moreover, the government achieved its goal of building one million houses...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Machinery market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: General Purpose Machinery, Special Purpose Machinery.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Machinery market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and
