Abstracts

Due to the drought suffered across Uruguay, the quality of tap water was impacted in 2023. With a high level of sodium, tap water was unsuitable for consumption. The Uruguayan government responded to the crisis by giving away bottled water to lower-income neighbourhoods in 2023. As a result, bottled water sales tripled as many were forced to buy the product, leading to a fall in retail value sales for tea, as water was limited.

Euromonitor International's Tea in Uruguay report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Black Tea, Fruit/Herbal Tea, Green Tea, Instant Tea, Other Tea.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
