Abstracts

Singapore enjoyed a healthy influx of international arrivals via Singapore Changi Airport in 2013 with the abundance of low cost carriers, transporting tourists from regional destinations with multiple flights per day. However, the growth of international arrivals was not directly proportionate to tourism receipts. This was contributed to by the cut of corporate business travel budgets, the strong Singapore dollar exchange rate, as well as lower average transactions per trip as tourists travel...

Euromonitor International's Travel and Tourism in Singapore report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2009-2013, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2018 illustrate how the market is set to change.
