Date: April 2013
Pages: 39
Price: US$ 990.00 (Single User License)
ID: W0280D93E98EN

Abstracts

Discounted prices are boosting sales of women’s outerwear, particularly the more fashionable clothing lines in department stores. Consumers can purchase several products for the same price as they buy one or two items in the non-discount season. This favours the development of a more “fashionable style” within social groups, using outerwear as a way of differentiating themselves from other groups. This trend has been positive for companies which offer discount sales seasons, providing consumers...

Euromonitor International's Women's Outerwear in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2008-2012 and analysis by distribution format allowing you to identify the sectors driving growth.
