Abstracts

Inorganic Basic Chemical Manufacturing in the UK

Companies in this industry manufacture a wide range of inorganic basic chemicals including silver nitrate, silicon and calcium carbonates. Inorganic basic chemicals are generally of mineral rather than of biological origins. Demand comes from many downstream industries including consumer personal care, water purification, pharmaceutical and petroleum. This industry excludes the production of titanium dioxide, nitric acid and ammonia.

This report covers the scope, size, disposition and growth of the industry including the key sensitivities and success factors. Also included are five year industry forecasts, growth rates and an analysis of the industry key players and their market shares.
