Abstracts

Subway, Light Rail & Cable Car Transport in China

Firms within the Subway, Light Rail and Cable Car Transport industry in China provide local and suburban public transportation services with right of way. These services are separated from other street traffic and provide a regular timetable for passengers. The four most common means of transportation provided are subways, light rail, tram cars and cable cars.

This report covers the scope, size, disposition and growth of the industry including the key sensitivities and success factors. Also included are five year industry forecasts, growth rates and an analysis of the industry key players and their market shares.
