## Abstracts

### TV & Home Theater Installation Services

**Plugged in:** The TV and Home Theater Installation Services industry's performance will improve over the next five years, in line with stronger demand for advanced electronics and renewed consumer spending. Consumers often purchase TVs and their associated installation services when they buy new homes or invest in home improvements.

Therefore, the collapsing real estate and financial markets hampered growth during the previous five-year period.

This industry installs home theater systems. These systems may include TVs, projectors, video players, audio systems, acoustic engineering, lighting and furniture. Electronic retailers that provide installation services are included in this industry.

This report covers the scope, size, disposition and growth of the industry including the key sensitivities and success factors. Also included are five year industry forecasts, growth rates and an analysis of the industry key players and their market shares.
