## Abstracts

### Waste Management Services in the UK

Firms operating within this industry are involved in remediation activities and other waste management services. These services include the decontamination of soils, groundwater and surface water following accidental pollution at the place of pollution; decontamination of industrial plants and sites, including nuclear plants; cleaning up of oil spills and other pollution; and asbestos, lead paint and other toxic material abatement.

This report covers the scope, size, disposition and growth of the industry including the key sensitivities and success factors. Also included are five year industry forecasts, growth rates and an analysis of the industry key players and their market shares.
