## Abstracts

### Product description

The Competitive Intelligence Report Interferon as of February 2011 provides a competitor analysis in the development pipeline of novel recombinant and natural interferon alpha, beta, gamma and of other subtypes for treatment of infectious diseases, cancer and multiple sclerosis, respectively.

Purchase of the downloadable pdf report includes a 6-month online access to the data of the report and any updates since the publication date. Credentials to access the database will be sent by e-mail and allow online work with the project data to print or export an individual report.

The report provides information on the marketed interferon preparations and includes a compilation of current active projects in research and development of novel interferon products including novel presentation or delivery formats. In addition, the report lists company-specific product portfolios and R&D pipelines of interferon products. Competitor projects are listed in a tabular format providing information on:

Drug Codes,

Target / Mechanism of Action,

Class of Compound,

Company,

Product Category,

Indication,

R&D Stage and

## **Index**

Interferon alpha:

1st generation Interferon (IFN) alpha-2a

1st generation IFN alpha-2a biosimilars and off-patent country products

2nd generation IFN alpha-2a

2nd generation IFN alpha-2a biosimilars and off-patent country products

1st generation IFN alpha-2b

1st generation IFN alpha-2b biosimilars and off-patent country products

2nd generation IFN alpha-2b

2nd generation IFN alpha-2b biosimilars and off-patent country products

New developments of IFN alpha-2b

Other IFN alpha subtypes

IFN alpha with not-specified subtype

Interferon beta:

1st generation IFN beta-1a

1st generation IFN beta-1a biosimilars and off-patent country products

1st generation IFN beta-1b

1st generation IFN beta-1b biosimilars and off-patent country products

Next generation IFN beta

Other IFN beta products

IFN beta products with not-specified subtype

Interferon gamma

Other Interferons

Interferons delivered by DNA

Interferons as part of Vaccines
