Abstracts

Semiconductors in the United States

Summary

Semiconductors in the United States industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

A semiconductor is a material that possesses distinct electrical properties which allow it to play a pivotal role in the operation of computers, smartphones, television sets, automobiles, among others. The electrical properties of semiconductors lie between those of conductors and insulators. This intermediate behavior grants semiconductors the ability to precisely control and regulate the flow of electrical energy within electronic circuits, making them essential for tasks like signal processing, data storage, and power management. The scope of the semiconductor market covers sales of semiconductors to end-user manufacturers.

The US semiconductors market recorded revenues of \$90.5 billion in 2024, representing a compound annual growth rate (CAGR) of 8.7% between 2019 and 2024.

The integrated segment accounted for the market's largest proportion in 2024, with total revenues of \$85.2 billion, equivalent to 94.1% of the market's overall value.

The US accounted for a 90.8% share of the North American semiconductors market in 2024.

Scope

Save time carrying out entry-level research by identifying the size, growth, major segments, and leading players in the semiconductors market in the United States

Use the Five Forces analysis to determine the competitive intensity and therefore attractiveness of the semiconductors market in the United States

Leading company profiles reveal details of key semiconductors market players' global operations and financial performance

Add weight to presentations and pitches by understanding the future growth prospects of the United States semiconductors market with five year forecasts

Reasons to Buy

What was the size of the United States semiconductors market by value in 2024?

What will be the size of the United States semiconductors market in 2029?

What factors are affecting the strength of competition in the United States semiconductors market?

How has the market performed over the last five years?

Who are the top competitors in the United States's semiconductors market?

Contents

1 EXECUTIVE SUMMARY

- 1.1. Market value
- 1.2. Market value forecast
- 1.3. Category segmentation
- 1.4. Geography segmentation
- 1.5. Market rivalry
- 1.6. Competitive landscape

2 MARKET OVERVIEW

- 2.1. Market definition
- 2.2. Market analysis

3 MARKET DATA

- 3.1. Market value

4 MARKET SEGMENTATION

- 4.1. Category segmentation
- 4.2. Geography segmentation

5 MARKET OUTLOOK

- 5.1. Market value forecast

6 FIVE FORCES ANALYSIS

- 6.1. Summary
- 6.2. Buyer power
- 6.3. Supplier power
- 6.4. New entrants
- 6.5. Threat of substitutes
- 6.6. Degree of rivalry

7 COMPETITIVE LANDSCAPE

- 7.1. Who are the leading players?
- 7.2. What strategies do the leading players follow?
- 7.3. What are the strengths of the leading players?

8 COMPANY PROFILES

- 8.1. Intel Corp
- 8.2. Qualcomm Inc
- 8.3. Texas Instruments Inc
- 8.4. NVIDIA Corp

9 MACROECONOMIC INDICATORS

- 9.1. Country data

10 APPENDIX

- 10.1. Methodology
- 10.2. Industry associations
- 10.3. Related MarketLine research
- 10.4. About MarketLine
