Abstracts

The MEA SI Services market is expected to grow from \$6.30 billion in 2010 to \$10.34 billion in 2016, registering a CAGR of 8.87% from 2011 to 2016. The factors driving the overall market include government investments and advancements in technology, while factors such as lack of infrastructure and technical integration challenges continue to be the bottlenecks for system integration services market in the MEA region.

MarketsandMarkets have segmented the MEA SI Services market as follows: Overall IT services are categorized into managed and professional IT services. Professional IT services include Services Integration (SI) and Consulting services. SI services, they further include Application Integration, and Infrastructure Integration services.

Middle East is leading the MEA region in terms of absolute dollar value of system integration services; whereas Africa is leading the market in terms of compounded annual growth rate of the same. Amongst several industries, BFSI is leading due to the growth of e-Banking, thereby triggering higher demand for system integration services.
