Abstracts

According to our (Global Info Research) latest study, the global Horses Joint Care Products market size was valued at US$ 126 million in 2025 and is forecast to a readjusted size of US$ 167 million by 2032 with a CAGR of 4.1% during review period.

In 2024, the global cost of equine joint care products will be approximately RMB 298.78/meter, with a gross profit margin of 22.73%.

Horses Joint Care Products refer to a range of specialized supplements, medications, and topical treatments designed to support and maintain the health of a horse's joints. These products aim to alleviate pain, reduce inflammation, and enhance mobility in horses, particularly those involved in strenuous activities like racing, jumping, or heavy work. They typically contain ingredients such as glucosamine, chondroitin sulfate, hyaluronic acid, and omega-3 fatty acids, which help to lubricate joints, repair cartilage, and reduce discomfort. Proper joint care is crucial for ensuring a horse's long-term performance, comfort, and overall well-being, making these products an essential part of equine healthcare.

The upstream of global equine joint care products is the supply of raw materials and basic ingredients (medicinal plant extracts such as curcumin and glucosamine, chemical synthetics such as hyaluronic acid and chondroitin sulfate, and carrier materials such as natural oils and gel matrices), represented by nutritional raw material giants such as DSM, BASF, and Lonza, as well as plant extract suppliers such as Naturex and Martin Bauer; the midstream is product research and development and production and manufacturing (joint creams/patches, oral nutritional supplements, and injectable biological preparations), represented by companies such as Equine HealthTech, Bayer

Animal Health, and Merck Animal Health; the downstream is application scenarios and sales channels (equestrian clubs, racecourses, veterinary clinics, horse farms, and online/offline retail networks), covering competitive horses, sports horses, elderly horses, and daily health care needs.

This report is a detailed and comprehensive analysis for global Horses Joint Care Products market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Horses Joint Care Products market size and forecasts, in consumption value ($ Million), sales quantity (Tons), and average selling prices (US$/kg), 2021-2032
