Abstracts

According to our (Global Info Research) latest study, the global Identity and Access Management Software for Education market size was valued at US$ 8188 million in 2024 and is forecast to a readjusted size of USD 17960 million by 2031 with a CAGR of 12.0% during review period.

The Identity and Access Management (IAM) Software for Education market has seen significant growth and widespread adoption, driven by the increasing demand for robust security and streamlined access control solutions in educational institutions. IAM Software for Education encompasses a diverse range of applications and platforms designed to manage and protect user identities, ensure secure authentication, and control access to sensitive data and resources within educational environments. The market's expansion can be attributed to the growing awareness among educational institutions of the need to safeguard sensitive student and staff information, comply with data protection regulations, and address the complexities of managing diverse user identities across various systems and applications. IAM Software for Education offers features such as single sign-on (SSO), multi-factor authentication (MFA), role-based access control (RBAC), and user lifecycle management, enabling institutions to maintain a secure and user-friendly digital environment while enhancing operational efficiency. Additionally, these solutions facilitate compliance with privacy regulations, such as the Family Educational Rights and Privacy Act (FERPA) and the General Data Protection Regulation (GDPR). As the education sector continues to embrace digital technologies and online learning, the IAM Software for Education market is expected to witness further growth, with vendors focusing on scalability, seamless integration with education-specific applications, and innovative security measures to address the evolving needs and challenges in identity and access management within educational

This report is a detailed and comprehensive analysis for global Identity and Access Management Software for Education market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Identity and Access Management Software for Education market size and forecasts, in consumption value ($ Million), 2020-2031

Global Identity and Access Management Software for Education market size and forecasts by region and country, in consumption value ($ Million), 2020-2031

Global Identity and Access Management Software for Education market size and forecasts, by Type and by Application, in consumption value ($ Million), 2020-2031

Global Identity and Access Management Software for Education market shares of main players, in revenue ($ Million), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Identity and Access Management Software for Education

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Identity and Access Management Software for Education market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include OneLogin, Identity Fusion, One

Identity, Oxford Computer, Ilantus Products, cidaas, Clever, BIO-key, LoginRadius, Idenhaus Consulting, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Identity and Access Management Software for Education market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

1 MARKET OVERVIEW

1.1 Product Overview and Scope
1.2 Market Estimation Caveats and Base Year
1.3 Classification of Identity and Access Management Software for Education by Type
  1.3.1 Overview: Global Identity and Access Management Software for Education Market Size by Type: 2020 Versus 2024 Versus 2031
  1.3.2 Global Identity and Access Management Software for Education Consumption Value Market Share by Type in 2024
  1.3.3 Cloud-based
  1.3.4 On-premises
  1.3.5 Hybrid
1.4 Global Identity and Access Management Software for Education Market by Application
  1.4.1 Overview: Global Identity and Access Management Software for Education Market Size by Application: 2020 Versus 2024 Versus 2031
  1.4.2 School
  1.4.3 Educational Institution
  1.4.4 Others
1.5 Global Identity and Access Management Software for Education Market Size & Forecast
1.6 Global Identity and Access Management Software for Education Market Size and Forecast by Region
  1.6.1 Global Identity and Access Management Software for Education Market Size by Region: 2020 VS 2024 VS 2031
  1.6.2 Global Identity and Access Management Software for Education Market Size by Region, (2020-2031)
  1.6.3 North America Identity and Access Management Software for Education Market Size and Prospect (2020-2031)
  1.6.4 Europe Identity and Access Management Software for Education Market Size and Prospect (2020-2031)
  1.6.5 Asia-Pacific Identity and Access Management Software for Education Market Size and Prospect (2020-2031)
  1.6.6 South America Identity and Access Management Software for Education Market Size and Prospect (2020-2031)
