Pumice and Pumicite Market Review

Merchant Research & Consulting, Ltd

Date: January 1, 2012

Pages: 56

Price: US\$ 1,090.00

ID: PAD83A9F4F5EN

Pumice and Pumicite Market Review is an absolutely essential resource for anyone interested in the detailed information on the reviewed market. Using a wide range of primary and secondary sources, we combined, analyzed and presented all available data about Pumice and Pumicite in the all-in-one report issued in a coherent format.

In addition to the descriptive part, the report provides a range of tables and figures which give a true insight into the relevant national, regional and global markets of Pumice and Pumicite.

The report also features next five year forecasts by market experts and analysts.

Monthly market monitoring service for Pumice and Pumicite is also available.

Monthly Pumice and Pumicite Market Monitoring:

- Summarizes key events occurred in Pumice and Pumicite worldwide.
- Covers Pumice and Pumicite weekly prices by region and supplies with one-year historical background.
- Monitors activities of Pumice and Pumicite market players.
- Issued monthly, available on annual subscription.

Scope

- The report represents a thorough study of Pumice and Pumicite, covering both global and regional markets.
- It aims to give a proper picture of the pertinent market, as well as its trends, perspectives and opportunities.
- It covers the present situation, historical background and future forecast of Pumice and Pumicite market.
- Comprehensive data showing Pumice and Pumicite production, consumption, trade statistics and prices are provided (both nationwide and worldwide).
- Each country's market overview covers the following: Pumice and Pumicite production in the country, major producers, Pumice and Pumicite consumption in the country market, Pumice and Pumicite trade in the country, Pumice and Pumicite prices.
- The report offers a 5 year outlook on the reviewed market, including Pumice and Pumicite market volume predictions and price trends.

Reasons to Buy

The immediate benefits of buying this report are as follows:

- Your knowledge of the Pumice and Pumicite market will become unparalleled.
- The unique analysis of the relevant market as well as detailed knowledge of both global and regional factors impacting the industry will take you one step further in managing your business environment.
- You will boost your company's business/sales activities.

- Your search for prospective partners and suppliers will be largely facilitated.
- An in-depth market forecast will strengthen your decision-making process.
- Besides annual market intelligence your knowledge of the Pumice and Pumicite industry can be enriched by the Monthly market monitoring service offered by the company.

About Pumice and Pumicite Market

Pumice is a light and porous type of pyroclastic igneous rock. In commerce, pumice is the term applied to larger pumice stones, while pumicite consists of fine grains or ash.

The main use for pumice is as an aggregate in lightweight building blocks and assorted building products. The other major applications for pumice and pumicite include abrasive, absorbent, concrete aggregate and admixture, filter aid, horticultural (including landscaping), and the stonewashing of denim.

World leader in pumice and pumicite production is Turkey with 23% market share. Second place is taken by Iran (8.7% of world total).
