Electric-power industry in Namibia: Business Report 2024

https://marketpublishers.com/r/EEC6CE0FA97EN.html
Date: April 2024
Pages: 71
Price: US$ 1,160.00 (Single User License)
ID: EEC6CE0FA97EN

Abstracts

This report is a comprehensive research of electric-power industry in Namibia.

The first two chapters of the report feature the country profile by giving general information on Namibia and by thoroughly studying its economic state, (including key macroeconomic indicators and their development trends). The third chapter covers common business procedures in the country: from starting a project to closing a business. This chapter elucidates the country's fiscal system, existing labour practices, property rights regulation peculiarities and other issues vital for running business in this country.

Further, the report analyses electric-power industry in the country by identifying key market players, (including major producers, traders, etc), as well by evaluating foreign economic relations within the sector in the recent three years. An important part of the report is Porter Five Forces analysis that surveys an industry through five major questions (What composes a threat of substitute products and services? Is there a threat of new competitors entering the market? What is the intensity of competitive rivalry? How big is the bargaining power of buyers? How significant is the bargaining power of suppliers?).

Related news bulletins update and add the finishing touch to an overview of economic situation in Namibia.

The aim of this study is to provide a tool which will assist strategy group and the management team specialists in making correct decisions as how to penetrate the Namibia market and how to catch the maximum commercial opportunities in dealing with business partners in this country.
