Global Recombinant Human GM-CSF Protein Market Growth 2025-2031

https://marketpublishers.com/r/G8C8A227A27DEN.html
Date: September 2025
Pages: 132
Price: US$ 3,660.00 (Single User License)
ID: G8C8A227A27DEN

Abstracts

The global Recombinant Human GM-CSF Protein market size is predicted to grow from US$ 50.9 million in 2025 to US$ 79.7 million in 2031; it is expected to grow at a CAGR of 7.8% from 2025 to 2031.

GM-CSF is a cytokine that belongs to the colony stimulating factor family. It plays an important role in immune regulation, hematopoiesis and inflammation. GM-CSF is mainly produced by a variety of cells, including macrophages, T cells, B cells and fibroblasts. It can stimulate the proliferation, differentiation and functional activation of granulocytes and monocytes in the hematopoietic cell series. GM-CSF can promote the differentiation of multipotent stem cells in the bone marrow into granulocytes and monocytes, increase the number of white blood cells, and improve their function, thereby enhancing the body's immune response and anti-infection ability. In addition, GM-CSF also has an important regulatory effect on the activation and antimicrobial activity of macrophages and dendritic cells. In clinical practice, GM-CSF is widely used to treat bone marrow transplant-related complications, malignant tumors, and immunodeficiency diseases. It is also used as a tool in laboratory research to explore the regulatory mechanisms of the hematopoiesis and immune systems and to develop new therapeutic strategies.

United States market for Recombinant Human GM-CSF Protein is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

China market for Recombinant Human GM-CSF Protein is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

Europe market for Recombinant Human GM-CSF Protein is estimated to increase from US$ million in 2024 to US$ million by 2031, at a CAGR of % from 2025 through 2031.

Global key Recombinant Human GM-CSF Protein players cover Thermo Fisher Scientific Inc., Bio-Techne, Scientists Helping Scientists, Abcam Limited, FUJIFILM Irvine Scientific, etc. In terms of revenue, the global two largest companies occupied for a share nearly % in 2024.

LP Information, Inc. (LPI) ' newest research report, the “Recombinant Human GM-CSF Protein Industry Forecast” looks at past sales and reviews total world Recombinant Human GM-CSF Protein sales in 2024, providing a comprehensive analysis by region and market sector of projected Recombinant Human GM-CSF Protein sales for 2025 through 2031. With Recombinant Human GM-CSF Protein sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US$ millions of the world Recombinant Human GM-CSF Protein industry.

This Insight Report provides a comprehensive analysis of the global Recombinant Human GM-CSF Protein landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Recombinant Human GM-CSF Protein portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms’ unique position in an accelerating global Recombinant Human GM-CSF Protein market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Recombinant Human GM-CSF Protein and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Recombinant Human GM-CSF Protein.

This report presents a comprehensive overview, market shares, and growth opportunities of Recombinant Human GM-CSF Protein market by product type, application, key manufacturers and key regions and countries.

Segmentation by Type:

Contents

1 SCOPE OF THE REPORT

1.1 Market Introduction
1.2 Years Considered
1.3 Research Objectives
1.4 Market Research Methodology
1.5 Research Process and Data Source
1.6 Economic Indicators
1.7 Currency Considered
1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

2.1 World Market Overview
  2.1.1 Global Recombinant Human GM-CSF Protein Annual Sales 2020-2031
  2.1.2 World Current & Future Analysis for Recombinant Human GM-CSF Protein by Geographic Region, 2020, 2024 & 2031
  2.1.3 World Current & Future Analysis for Recombinant Human GM-CSF Protein by Country/Region, 2020, 2024 & 2031
2.2 Recombinant Human GM-CSF Protein Segment by Type
  2.2.1 Purity
