

# Anthocyanin (CAS 13329-14-1) Market Research Report 2026

<https://marketpublishers.com/r/AF7AC9B85EBEN.html>

Date: June 2026

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: AF7AC9B85EBEN

## Abstracts

Anthocyanin (CAS 13329-14-1) Market Research Report 2026 presents comprehensive data on Anthocyanin markets globally and regionally (Europe, Asia, North America etc.)

The report includes Anthocyanin description, covers its application areas and related patterns. It overviews Anthocyanin market, names Anthocyanin producers and indicates its suppliers.

Besides, the report provides Anthocyanin prices in regional markets.

In addition to the above the report determines Anthocyanin consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Anthocyanin (CAS 13329-14-1) Market Research Report 2026 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

## Contents

### **1. ANTHOCYANIN (CAS 13329-14-1)**

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

### **2. ANTHOCYANIN APPLICATIONS**

- 2.1. Anthocyanin application spheres, downstream products

### **3. ANTHOCYANIN MANUFACTURING METHODS**

### **4. ANTHOCYANIN PATENTS**

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

### **5. ANTHOCYANIN MARKET WORLDWIDE**

- 5.1. General Anthocyanin market situation, trends
- 5.2. Manufacturers of Anthocyanin
  - Europe
  - Asia
  - North America
  - Other regions
- 5.3. Anthocyanin suppliers (importers, local distributors)
  - Europe
  - Asia
  - North America
  - Other regions

#### 5.4. Anthocyanin market forecast

### **6. ANTHOCYANIN MARKET PRICES**

#### 6.1. Anthocyanin prices in Europe

#### 6.2. Anthocyanin prices in Asia

#### 6.3. Anthocyanin prices in North America

#### 6.4. Anthocyanin prices in other regions

### **7. ANTHOCYANIN END-USE SECTOR**

#### 7.1. Anthocyanin market by application sphere

#### 7.2. Anthocyanin downstream markets trends and prospects

\*Please note that Anthocyanin (CAS 13329-14-1) Market Research Report 2026 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

## About

Anthocyanin refers to a water soluble pigment with the molecular formula  $C_{15}H_{11}ClO$  and molecular weight 242.70. The pigment belongs to the class of flavonoids that are synthesized via the phenylpropanoid pathway. Anthocyanin exists as a colorless to yellow liquid with the boiling point  $115.3^{\circ}C$ . The pigment is found in leaves, roots, stems, flowers and fruits of plants. Anthocyanin in flowers attracts pollinators, protects cells of the plants from high-light damage, and acts as an antioxidant.

Anthocyanins are beneficial as dietary antioxidants. The pigments are utilized to improve visual acuity and to manage circulatory disorders. Some anthocyanins possess anti-inflammatory properties. Moreover, pigments are known to be crucial in treating ulcers and diabetes. Besides, anthocyanins exhibit their antiviral and antimicrobial properties. The pigments are found in candies, confections, dry-mix beverages, and in snack bars and dairy products.

Vapors of anthocyanins may produce the irritation of skin and eyes, corneal burns and damage of eyes. The contact of the pigment with skin causes severe pain and redness. Inhalation may lead to the severe irritation of the respiratory tract. Dizziness, diarrhea, headaches, nausea, urinary frequency, etc. are among common side effects of overexposure. Anthocyanins can act as photosensitizers.

Anthocyanin market is covered in the study Anthocyanin (CAS 13329-14-1) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks anthocyanin market situation, names manufacturers, suppliers as well as users. The report also provides current anthocyanin prices in the market.

## I would like to order

Product name: Anthocyanin (CAS 13329-14-1) Market Research Report 2026

Product link: <https://marketpublishers.com/r/AF7AC9B85EBEN.html>

Price: US\$ 2,200.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
