Abstracts

The Semiconductor Microcompnents market for automotive industry is projected to grow at a CAGR of 6.53% to reach US$8.946 billion by 2024. The growing proportion of in-vehicle electronic content is estimated to drive the Semiconductor Microcompnents market for automotive industry. Simultaneously, the steady increase in the disposable income is driving the production of passenger and commercial vehicles, which is further expected to augment the growth of the market during the forecast period.

This research study examines the current market trends related to the demand, supply, and sales, in addition to the recent developments. Major drivers, restraints, and opportunities have been covered to provide an exhaustive picture of the market. The analysis presents in-depth information regarding the development, trends, and industry policies and regulations being implemented by the relevant agencies. Further, the overall regulatory framework of the market has been exhaustively covered to offer stakeholders a better understanding of the key factors affecting the overall market environment.

Identification of key industry players in the industry and their revenue contribution to the overall business or relevant segment aligned to the study have been covered as a part of competitive intelligence done through extensive secondary research. Various studies and data published by industry associations, analyst reports, investor presentations, press releases and journals among others have been taken into consideration while conducting the secondary research. Both bottom-up and top down approaches have been utilized to determine the market size of the overall market and key segments. The values obtained are correlated with the primary inputs of the key stakeholders in the Semiconductor Microcompnents value chain. The last step involves complete market engineering which includes analyzing the data from different sources and existing

proprietary datasets while using various data triangulation methods for market breakdown and forecasting.

Market intelligence is presented in the form of analysis, charts, and graphics to help the clients in gaining faster and efficient understanding of the Semiconductor Microcompnents market for automotive industry

Major industry players profiled as part of the report are Intel Corporation, Advacned Micro Devices, Inc., NXP Semiconductors, and STMicroelectronics among others.

Segmentation

The Semiconductor Microcompnents market for automotive industry has been analyzed through following segments:

By type
Microprocessors
Microcontrollers
Digital Signal Processors

By Geography
Americas
USA
Canada
Brazil
Others

Europe Middle East and Africa
Germany
France
United Kingdom
Italy
Others

Asia Pacific
China
Japan
India
Taiwan
