## Abstracts

The Future of Retail Spending in Germany is one of the leading retail market publications on Germany. The comprehensive research includes spending patterns and outlook of Germany retail consumers on each of the sub segments. It identifies the retail sectors which are poised to grow, drivers behind growth and the potential impact of such drivers on each of the retail segment spending.

The report also analyzes the changing consumer dynamics, preferences, regulatory environment and impact on brands and producers in the segment. Key segments analyzed in the research include mass grocery, automobiles, OTC pharma, computers and consumer electronics. Further, the research on Germany retail enables you to compare the Germany retail market with its peer markets. Detailed SWOT analysis and analysis of latest industry developments is also included in the research.

Forecasts of spending on each of the sub-segment and total segment to 2022, as analyzed and forecasted by senior analysts in the team supported by sophisticated forecast tools. Strong research methodology and user friendly presentations make the report most apt for your business analysis and presentation requirements.

Industry segments covered in the research include

Consumer Electronics, Audio, visual, photographic and info processing equipment, Education, Food and Beverages, Health and Beauty, Household Goods and Maintenance, Electricity, gas and other fuels, Rentals and Maintenance, Insurance and Financial Services, Tobacco and Narcotics, Automotive Vehicles
