Abstracts

New Zealand is one of the potential markets for investment in renewable energy power generation. Strong government support coupled with private sector funding for solar, wind, tidal and other renewable sources is driving New Zealand market demand. Strong growth in planned renewable plant additions will drive the New Zealand market size over the forecast period.

On the global front, the global renewable power market is forecast to report a growth of 4.3% CAGR over the long term future to 2025. Capacity additions, the decline in capital expenditure required for the set-up of infrastructure including solar panels, wind turbines, and other equipment will drive the global demand. Further, growth in smart grid systems and technological advancements in storage systems will boost the adoption of new and clean energy sources. Increased investments and technological advancements regarding environmental protection and reduced cost of energy production drive the global renewable power energy market size.

Relatively high investments and switching costs pose challenges to New Zealand development plans of electricity generation from renewable energy sources. Supportive renewable energy power policies and encouragement for companies are being extended to harness strong New Zealand renewable energy market potential.

New Zealand Renewable energy power generation companies, strategic and financial investors are focusing more on the evolving value chain and are investing significantly across segments of the solar, wind, and hydro value chain. Further, New Zealand companies are focusing on synergistic acquisitions to boost their market shares and profitability of renewable energy power generation.

Industries play an important role in the adoption of renewable energy resources to reduce reliance on conventional energy resources. The penetration of renewable energy sources across the rural areas has the great potential to drive New Zealand renewable energy power generation market size in upcoming years.

New Zealand renewable energy power generation market research covers the 2019 scenario and growth prospects of New Zealand renewable energy power generation market to 2026. The New Zealand renewable power market size is calculated based on power generated from renewable sources such as solar, wind, tidal, and others.

Based on energy sources, New Zealand renewable energy power generation market is segmented into solar, wind, hydro, and nuclear. New Zealand renewable energy power generation market analysis is performed based on total electricity demand, energy demand per capita, and macroeconomic factors such as GDP, population, and per capita income.

Report Description

The New Zealand Renewable energy power generation Market, Size, Share, Outlook and Growth Opportunities 2020-2026 presents a comprehensive analysis of the country's renewable energy power generation. Key trends and critical insights into New Zealand renewable energy power generation markets along with key drivers, restraints, and growth opportunities are present in the report.

New Zealand solar, New Zealand wind, New Zealand hydro, New Zealand nuclear markets are analyzed and forecast to 2026. Further, New Zealand renewable energy generation including wind, solar, hydro, nuclear energy generation is forecast to 2026. Demand for all these renewable energy power sources is also forecast during the period.

New Zealand renewable energy power generation market is compared against five of its competitive markets in the region to analyze the role of New Zealand on regional front and benchmark its operations.

Global renewable energy power generation, Asia Pacific, Europe, Middle East Africa, North America, and Latin America renewable energy power generation market outlook is also presented in the report to provide a global perspective of the industry.

New Zealand population and economic outlook are also presented in the report to

provide insights and forecasts of macroeconomic factors shaping the future of New Zealand renewable energy power generation markets.

Further, business and SWOT profiles of three of the leading renewable energy power generation companies in New Zealand are detailed in the report along with recent developments and their impact on overall market growth.

Contents

1. INTRODUCTION

1.1 Market Scope and Definition
1.2 Study Assumptions
1.3 Research Methodology

2. NEW ZEALAND RENEWABLE INDUSTRY INSIGHTS

2.1 Industry Overview, 2019
2.2 New Zealand Total Renewable Market Value Outlook, 2016- 2026
2.3 New Zealand Renewable Market Trends and Insights
2.4 Key strategies Planned by Market Leaders
2.5 SWOT Analysis
  2.5.1 Key Strengths
  2.5.2 Key Weaknesses
  2.5.3 Potential Opportunities
  2.5.4 Potential Threats

3. NEW ZEALAND RENEWABLE ENERGY POWER CAPACITY OUTLOOK TO 2026

3.1 New Zealand Wind Capacity Outlook, 2016- 2026
3.2 New Zealand Solar Capacity Outlook, 2016- 2026
3.3 New Zealand Hydro Capacity Outlook, 2016- 2026
3.4 New Zealand Nuclear Capacity Outlook, 2016- 2026

4. NEW ZEALAND RENEWABLE ENERGY POWER GENERATION OUTLOOK TO 2026

4.1 New Zealand Wind Production Outlook, 2016- 2026
4.2 New Zealand Solar Production Outlook, 2016- 2026
4.3 New Zealand Hydro Production Outlook, 2016- 2026
4.4 New Zealand Nuclear Production Outlook, 2016- 2026

5. NEW ZEALAND ELECTRICITY CONSUMPTION OUTLOOK, 2016- 2026

5.1 Total Electricity Demand Forecast, 2016- 2026
5.2 Electricity Demand per Capita Forecast, 2016- 2026

+44 20 8123 2220
info@marketpublishers.com

6. NEW ZEALAND RENEWABLE INDUSTRY BENCHMARKING

6.1 Overall Ranking
6.2 Demand Index
6.3 Supply Index
6.4 Growth Index

7. SWOT PROFILES OF RENEWABLE COMPANIES IN NEW ZEALAND

7.1 Company A
7.2 Company B
7.3 Company C

8. NEW ZEALAND DEMOGRAPHIC AND MACROECONOMIC OUTLOOK TO 2026

8.1 New Zealand GDP (Gross Domestic Product, Current Prices) Outlook, 2006- 2026
8.2 New Zealand Disposable Income Outlook, 2006-2026
8.3 New Zealand Population Growth Outlook, 2006-2026
  8.3.1 Population Outlook by Age, 2006-2026
  8.3.2 Population Outlook by Gender, 2006-2026
  8.3.3 Population Outlook by Area, 2006-2026

9. LATEST RENEWABLE INDUSTRY TRENDS AND DEVELOPMENTS

10. APPENDIX

10.1 LNGAnalysis Expertise
10.2 Sources and Research Methodology
10.3 Contacts
